

Moodle Accessibility Tools-Online Learning

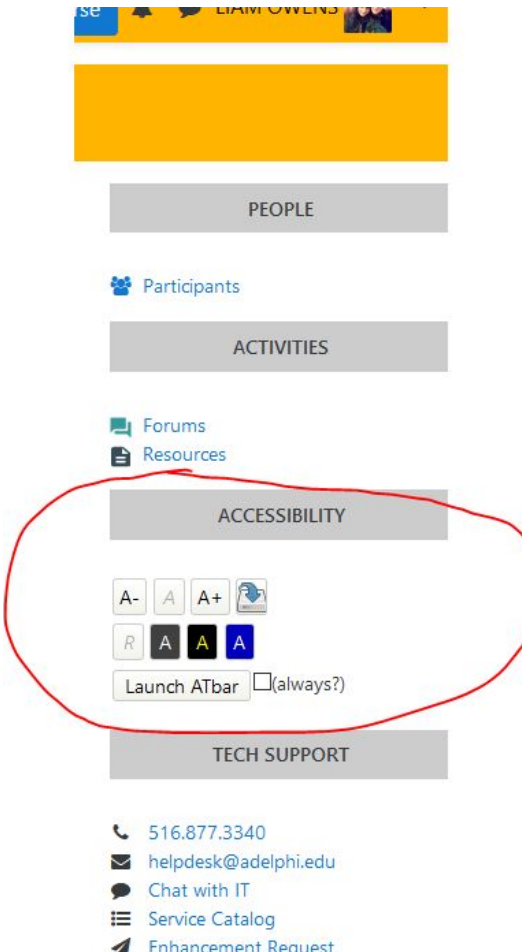

Moodle has Accessibility Tools that can be accessed on any course. Simply look on the right side of your course's homepage and see the block designated for Accessibility. Mark off the always? checkbox and Launch the ATbar if you always want it open.

The Accessibility Block has features:

- Text to Speech
- Contrast Mode
- Text Size
- Accessible Font Selection
- Line Spacing
- Filter Overlays

Check it out on any of your courses!

If you have any questions regarding the use of the Accessibility Block, please reach out to Lowens@adelphi.edu

The screenshot shows the right-hand sidebar of a Moodle course page. At the top, there is a yellow header bar with the name 'LIAM OWENS' and a profile picture. Below this are several menu items: 'PEOPLE', 'ACTIVITIES', and 'TECH SUPPORT'. Under 'PEOPLE', there is a 'Participants' link with a group icon. Under 'ACTIVITIES', there are 'Forums' and 'Resources' links with their respective icons. The 'ACCESSIBILITY' block is highlighted with a red circle and contains the following elements: a row of icons for text size (A-, A, A+), a row of icons for contrast (R, A, A+, A), a 'Launch ATbar' checkbox, and a '(always?)' checkbox. Below the 'TECH SUPPORT' section, there are contact options: a phone icon with the number '516.877.3340', an email icon with 'helpdesk@adelphi.edu', a chat icon with 'Chat with IT', a menu icon with 'Service Catalog', and a flag icon with 'Enhancement Request'.
